C. W. ROSSELL.

Friday's Baseball Game.

The local ball fans had a very good game dished up to them on Friday evening last, when the team from Wabamun clashed with the local players.

The Stony team was using its new pitcher, Mr. Hildebrand, but his catching partners, apparently, were unable to "hold" him.

The Wabamun outfit had a good battery and the other members played a good support game. Wabamun won by a score of 9 runs to 2—7 of the 9 runs being secured in 1 inning.

Mr. John Schlitt was umpire.

The visiting team should be made heartily welcome on its next appearance in 'Stony Plain.

Agricultural Directors Meet.

At the meeting of the Directors of the Agricultural Society Friday night, several important matters in connection with the coming Fair were up for discussion.

Owing to the number of motor cars now in use, it was decided to cancel the special train which made its trip out from Edmonton on the second day of the Fair, carrying exhibits and visitors.

An effort is being made to secure the services of the G.W.V. Band, of Edmonton, for Wednesday, the second day, on which day a good program of sports is billed, with baseball games and a football match.

Heard on Main Street.

"Do you mean to tell me you are turning away business?" "Yes," said the insurance man. "The fellow who just went out wanted me to write a policy on his home," still."

Sporting Notes.

The local baseballers journeyed to Wabamun the beginning of the week, to play a return game with that team, and the Stony bunch secured a repeat score of 9—2 against them.

The foot ball game Wednesday between Spruce grove and Stony Plain resulted in favor of the latter by 2 to 1.

At the football game Monday evening which Stony Plain played at Spruce Grove, the score finished 2—0 for the former.

The baseball team journeyed to Winterburn last week, and beat the team there by 19 to 7.

Calendar

August 4th—Lecture in Town Hall by Miss Morkin. At 3 and 8 p.m.

August 5th—A meeting in the Town Hall of the Good Roads Association.

August 6th—A meeting of the U.F.A. local in the Town Hall at 8 p.m.

August 8th—The Potato Growers meet in the Town Hall at 8 p.m.

August 16—Opening of Stony Plain Fair.

August 17th—Big Sports Day. August 18, 19, 20—Chautauque, afternoons and evenings.

Accident to Mr. Hase.

While engaged in stumping operations on his place, southwest of town, last Thursday, Mr. Tofteld Hase was unfortunate in having his hands severely injured.

While holding a cap in his left hand, it exploded, tearing the flesh on the first two fingers, and injuring his right hand also. A splinter, at the same time, struck him in the chest, making a painful wound.

His injuries were attended to by Dr. Outway.

LOCAL NEWS.

Mr. T. J. Hardwick made a business trip, on Tuesday, to Edmonton.

Mr. C. E. Clarke, who has been spending his vacation at his home in Nova Scotia is leaving for Stony Plain on Saturday next.

Mrs. Wood spent a week visiting friends in Edmonton.

Mrs. C. A. Gates returned Monday from an extended lecture tour.

Mr. Thompson was a business visitor to the City on Wednesday.

Mr. Findlay spent Sunday with friends in the City.

Mr. Stedman returned on Sunday from his vacation.

Mr. Henry Oppertshauer Sr. returned home this week, after a month's visit with friends across the border.

Rumor has it that another M.D. is coming, to settle in our midst.

Mr. Ducholke last week got in a car of binder twine and a car of farm machinery.

The Town Council held its regular meeting on Tuesday night.

Dr. Miller will be in Stony Plain on August the 11th and 25th.

Mr. J. S. Stewart, up to Saturday teller at the Bank of Commerce, has resigned, and gone into business. Mr. Findlay now is handing out the greenbacks.

The Imperial Oil Company here received a car of gasoline last week.

Mr. Zilliox is handling a car of binder twine for the U.G.G.

The bumps on the Main street roadway are being planed off, which is making a very decided improvement in the appearance of the street.

Not so large a crowd as was expected turned out to the Rifle Club meeting on Saturday afternoon last. But some good work was done by those who did turn up. It being so late in the season farmers generally are rather busy now.

Potato Growers to Meet.

Messrs. McGill and Klapper were in attendance, Saturday afternoon last, at the meeting of the Edmonton Potato Growers' Association, and secured a number of pointers which will be found useful when the Stony Plain Association gets going.

A meeting is called for Monday evening next, the 8th, in the Town Hall, when an address will be given by that well-known potato expert, Mr. J. H. Hare, of the Provincial Department of Agriculture. A good attendance is requested of all interested.

(Continued)

Darkness was settling down—darkness of the seventh night since their departure from Emerson—when, like a mole on the face of the plain, a little grey lump grew on the horizon. Arthur rose in his sleigh and waved his fur cap in the air; Harris sat back an answering cheer; the women plied their husbands with questions; even the horses took on new energy, and plunged desperately through the frozen snow which one moment supported their weight and the next splintered in broken ice-cakes beneath them. Slowly the mole grew until in the gathering shadows it took on indistinctly the shape of a building, and just as the rising moon crested the ridge of the Pembina hills the travellers swung up at the door. Arthur had carried the key of the padlock in his hand for the last mile; everybody was out of the sleighs a moment, and the next they were stamping their cramped feet on the cold wooden floor of the little shack. Arthur walked unerringly to a nail on the wall and took down a lantern; its dull flame drove the mist slowly down the wall, and presently the light was beating back from the glistening frost which sparkled on every log of the little room.

"Well, here we are in Hungry Hall," said Arthur. "Everything just as I left it." Then, turning to his wife, "Come, Lil," he said. "Jack, perhaps you have an engagement of your own." He took her wife in a passionate embrace and planted a fervent kiss upon her lips, while Harris followed his example. They were down on the boxes that served for chairs, amid a happiness too deep for words. So the minutes passed until Mrs. Arthur sprang to her feet. "Why, Mary," she exclaimed, "I do believe you're crying," while the moisture glistened on her own cheek. "Now, you men, clear out! I suppose you think the horses will stall themselves." Yes, she saw you have the box full of wood, Fred. That's not so bad for a start. Leave some matches, and say you might just get our boxes in here. Remember we've lived in these clothes for the best part of two weeks."

The young men sprang to their task and as soon as they were out of the house the girls threw their arms about each other and wept like women together. It was only for a moment; a quick look of the hand across the eyes, and both were busy removing coats and wraps. The door opened, and their "boxes," as well as other equipment from the sleighs, were carried in, and the men disappeared to the little stable at the back of the house. After several attempts the girls succeeded in starting a fire in the rusted stove, and soon its grateful heat was radiating to every corner of the room. As they busied themselves unpacking dishes and provisions they had opportunity to take observations of the new place that for one was to be a home and for the other a very welcome haven in a strange land.

The house was built of poplar logs, hewed and dovetailed at the corners with the skill of an Ontario woodman. It was about twenty by sixteen feet in size, with collar-beams eight feet from the floor. The roof was of two thicknesses of elm boards. The door was in the east side, near the southeast corner; the stove stood about the centre of the east wall. The only window was in the south; six panes of eight-by-ten glass sufficed for light. Through this window another lantern shone back from the darkness, and the flickering light from the stove danced in duplicate. A rough board table sat under the window; a nail box in the southwest corner evidently served as cupboard. No tools or movables of any value had been left in the sleigh. Arthur having stored such effects with a neighbor, some dozen miles away, lest they be stolen from the cabin by some unscrupulous traveller during his absence.

"I like the plan of it very much," said Mrs. Arthur. "I'll make a general survey of the room. 'Don't you think Fred has shown good judgment in the design?' This—indicating the door—'will be my reception room. And this, a little further in, is the parlor. The kitchen and parlor are right at hand—so convenient for the maid in serving, you know. And then our rooms. Fred and I will have the long room in the northwest wing, while you, of course, will occupy the guest-chamber in the north-

To Remove Bad Cold Medicine Not Necessary

The Balsamic Vapor of "Catarrhazone"

When Inhaled Quickly Disperses Colds

Every breath you draw through Catarrhazone Inhaler fills the whole breathing apparatus with pure piney essences that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat—the head is cleared, and every trace of cold and Catarrh disappears. Catarrhazone is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Get the dollar outfit, it last two months; smaller size, 50¢ trial size, 25¢ at all dealers or the Catarrhazone Co., Montreal.

cast. Do not be alarmed, my dear friends; the silence of the prairies weighs too heavily upon you we shall be within call. The bath may be reached from either room with equal convenience."

Boith laughed, but Mary, more seriously, sober-minded, was already slicing ham and greasing a frying-pan. "We need water, Lil—get some snow while I find the well. The water is hard, but there'll be coals presently, and we shall have toast. Lucky there were baked-potatoes left over from that night's camp; they'll fry up fine along with this." But already Lil was outside gathering snow.

She returned in breathless excitement. "Oh, Mary, I've just had a great thought. All my wedding china—present you know—is in that box, and I have my wedding clothes, too. Have you yours?"

"Why, dear, don't you see? The men are busy shovelling a path into the stable. I'll be an hour yet before they are in. Let's put on our wedding dresses, and set the table with our best dishes, and have dinner just for a kind of post-nuptial. Let's!"

"But ham and fried potatoes!"

"And toast! Didn't you promise toast?" And tea. And I'll wager there's some jam among these provisions.

Oh, let's hurry! An hour later, when the hungry men returned after making their horses and cattle comfortable, they stopped in amazement at the sight that confronted them. Snowy linen, delicate china, and sparkling glass reflected the soft light from one of those great lamps such as are bought only for presentation; and beside the table, like fairies, sprang from a strange land, stood two beautiful women, robed in the delicate draperies of their bridal attire. Exclamations of surprise were drowned in a flood of tender associations, and never in palace or boudoir had sweeter content and happiness reigned than among these four young pioneers as they sat down to their first home-served meal in the new land.

The days that followed were days of intense activity for both men and women. There was much to do, inside and out. In the interior of the little house an extraordinary change was wrought; simple draperies and pictures relieved the bareness of the walls; shelves were built for the accommodation of many trinkets dear to the feminine heart; a rag carpet covered the centre of the floor; plain but appealing dishes, picked critically from behind the paper curtain that now clagged the bare ribs of the cupboard; and a sense of homeliness pervaded the atmosphere. The men, in their own realm, had found much to occupy them, although for some days the range of their activities was limited owing to the necessity of getting the horses a much-needed rest before putting them back into the harness.

A week had passed, and no sign of life, other than that of the little party itself, had been seen about the Arthur's homestead, when one day Harris's eyes already becoming keen to the prairie distances, espied a dark point on the horizon. It grew slowly from a point to a spot, from a spot to an object, and at length was defined as a man on horseback. Presently Aleck McCrae drew up at the door.

"Hello, farmers," he cried, "how goes the battle? An' the good wives? Building a little Eden in this wilderness, I'll warrant. Tell them to put another name in the pot, an' a hungry name at that. I haven't seen a white woman's meal I don't know when."

The friends gathered about the old-timer, plying him, with questions, which he answered or discussed until the meal was over, holding out his business quietly in the background. But with supper ended, his pipe in his teeth and his first resting comfortably in the oven, he broached his subject. "Ready for the road in the morning, Jack? Don't want to break up your little honeymoon, I know, but the month is wearing on. Nothing but horseback for it now, an' they do say the settlers are crowding up something wonderful. The best land's going fast. Most of them will hold up now, with the roads breaking, but by slipping out on our horses we can locate an' file before the real spring rush opens. You should get some kind of shelter, up before the frost is out of the ground, so's to lose no time from ploughing once the spring opens."

Harris needed no urging, and in the early morning the two men, with

blankets and provisions, started out on horseback for the still farther West. The snow was now going rapidly; water stood in a thousand ponds and ponds on the face of the prairie, or ran with swift noiselessness in the creeks and ravines, although the real "break-up" of the season would not occur until early in April. By avoiding the sleigh-trails and riding over the open prairie, Harris and McCrae found a good opportunity given to observe the land. Harris soon found that more judgment was required in the selection of a prairie farm than he had supposed, and he congratulated himself upon having fallen in with so experienced a plainsman as McCrae. On the first day they rode over mile after mile, and beautiful country, following the survey stakes as closely as possible, and noting their location from time to time by lettering the posts.

"This is good enough for me," said Harris at length, as their horses created a little elevation from which the prairie stretched away in all directions, smooth as a table. "Let it be magnificent! And all free for the taking!"

"It's pretty to look at," said McCrae, "but I guess you didn't come West for scenery, did you?"

"Well, I don't mean to say I'm not looking at that grass. If the soil wasn't all right it wouldn't grow native crops like that!"

"The soil's all right," answered McCrae. "Nothing better anywhere, an' every acre of it is worth more than acres to every quarter-section. But this is in the frost belt. They get it every August—sometimes in July. Shouldn't wonder but it'll be all right in time, when the country gets settled up, but most homesteaders can't afford to wait. We've got to get further West yet, into the higher land of the Turtle Mountain, I know. I know there's good stuff there that hasn't been taken."

And so they pressed on, until, in the bright sunshine, the blue line of the Turtle Mountain lay like a lake on the western horizon. Here McCrae began paying more minute attention to the soil, examining the diggings around badger holes, watching out for clumps of "red willow," with always a keen eye for stones and low-lying alkali patches and the general topography of the quarter.

"This is most rolling country, with more land broken up by sleighs an' tracks, but it's good stuff," he said. "It's early to make predictions, but I'll risk one guess. There are two chances of people coming into this country—men who are looking for wheat land, nothing but wheat land, an' men who want some wheat land an' some stock land. I predict that in twenty-five years the wheat farmers will be buying more mortgage companies, an' the stock farmers will be building up bank accounts. Now stock must have water, an' if you can get natural shelter, so much the better. A creek may break your land a little, but it's worth more than it costs."

Many times in their explorations they passed over sections that Harris would have accepted, but McCrae objected, finding always some flaw not apparent to the untrained eye. Once, where a little river had worn its way across the plain, they came on a sod shack, where a settler was already located. "Nice spot," said McCrae, "but too sandy. His farm'll blow away when he breaks the sod. There's every crossing there, though, an' perhaps he thinks the railway will hit him when it comes. That's all a fallacy. It may go south of the lake; if it does we only bet on the wrong horse. We've got to take our chance on this."

Fresh Milk in Cubes

Milk in Solid Form Readily Dissolved in Tea

In Holland milk is now put up and sold in solid form, being made into little cubes which are readily dissolved in tea, coffee or other fluids.

The milk, after removal of the cream, is reduced by heat to dymonds, then powdered and mixed with the cream, the material being pressed into blocks.

These milk cubes have the advantage of preserving their freshness for a long time. They are recommended for use in regions where milk is not easily to be had, and travelers may find it convenient to carry a supply of them.—Philadelphia Public Ledger.

It is estimated that two years are required for the gulf stream water to travel from Florida to the coast of Norway.

Seed Certification of Potatoes.

The measure of success attainable in the growing of seed potatoes depends not only upon the practice of best cultural methods but also on the amount of attention paid to the several diseases to which potatoes, both plants and tubers, are subject.

To assist in this latter phase of the work, a number of inspectors specially trained in the identification of potato diseases and in the application of control measures recommended are again visiting the fields of all growers who have made application for such assistance this season.

The accomplishment of several purposes is the object of this assistance being rendered, chief of these being:

1. The grower is definitely advised by the inspector with regard to the condition of his crops and of the nature of any disease found to be present;
2. The grower is assisted in the eradication of all diseased, weak or otherwise undesirable plants from his fields; if he so desires;
3. The grower of crops which, after critical examination, have been found to be healthy during the growing season and of the tubers after harvest, are found to measure up to the standards set for. No seed potatoes are put in touch with prospective purchase;
4. Direct information is obtained with regard to conditions prevailing in the potato fields throughout the country year by year; records which are available for the information of any one interested are maintained of the history and behaviour of all the seeds.

In furtherance of this work, and

Agricultural Fairs.

With the elections out of the way, we now are able to devote our energies to other matters.

The Fairs which are billed for this month and next, deserve the support of everyone. They must have it to perform their useful function in the life of the community.

The tale is an old one; but it deserves repetition, that the Agricultural Fair is an educational institution designed to encourage the development of the highest grades of stock on our farms; the best types of grain in our fields; as well as to show the kind of work being done in our homes.

Observation is one of the best means of learning, and thru interested inspection of the exhibits at the local Fair many new ideas will be gained by everyone.

Let us all get together to make this year's Stony Plain Fair the best ever held!

In the event of the grower whose crops have been found up to the standard desiring to sell his stock as certified seed, a final examination is made by an inspector at the point of shipping; upon application by the grower. Providing the stock has been graded so that a shipment of potatoes for seed purposes contains no tubers under two ounces or above twelve ounces in weight, a sufficient number of tags to cover the bags or other containers necessary for the shipping of the amount of potatoes inspected is issued by the inspector and placed by him upon the shipment. These tags certify that the contents of the bags or other containers to which they are attached have been grown by the person whose name appears on the tags; that they have been inspected by an officer of the Department of Agriculture and found to be sufficiently vigorous and free from serious diseases, other pests and foreign varieties, to warrant them being classed as No. 1 or No. 2 grade seed potatoes.

An enhanced price to the grower over that paid for ordinary stock, satisfaction to the purchaser, the general distribution of a high grade of seed potatoes throughout many parts of the country, and the acquirement of a considerable seed trade with the United States, have been the results noted during the several years the work described has been in progress.

By any one desirous of growing seed potatoes with a view to certification, the following points should be particularly borne in mind; 1, plant only clean seed, preferably certified seed; 2, do not mix the varieties; 3, practise seed treatment; 4, keep the Colorado beetle and other insects under control; 5, use Bordeaux mixture. Strict attention to these points will provide reasonable assurance that the resulting crops will figure well in the inspection and certification records, and other conditions being equal, the grower who enters such crops in any of the field crop competitions will secure a high percentage of points at the hands of the judges.

All growers who have not yet availed themselves of the services of an inspector, which are furnished free of charge, are invited to communicate with the Dominion Botanist.

Mr. Wm. Gilbert, of Sunnybrook Farm,

Who has been making quite a stir at the Fairs, with his livestock exhibits.

Mr. Wm. Gilbert returned on Saturday from Brandon, Man., where he had been one of the judges at the Provincial Exhibition. From what he had seen on his trip thru the country, Mr. Gilbert realizes that Stony Plain district is one of the best places in the West this year.

While away, Mr. Gilbert arranged with two private companies to look over the Stony Plain district, with a view to building a cheese factory this fall at Stony Plain, and he feels quite sure one will be built, ready for early Spring. He would like to hear from every farmer who wishes to patronise same, with a view of finding out the size of factory required.

While in Brandon, Mr. Gilbert had an interview with the manager of one of the largest condensing companies in the U. S., who is looking for a site for a condensory in Western Canada. This gentleman was greatly impressed with what he heard of the prospects for his enterprise in Edmonton District.

Mr Barrie's Good Wheat.

Experts in wheat growing are loud in their praise of the 20-acre plot of R5d Fife wheat which Mr. J. A. Barrie has growing this season on his farm near Edmonton Beach. Forty measured stalks averaged over 5 ft., and it is headed out beautifully. This piece was planted April 16, and the owner expects to have it cut within the four-months' time. This field has been the cynosure of farmers for miles around for the past month, and Mr. Barrie expects it will show a record yield when threshed.

Good Roads Assoc'n.

Messrs. Holloway, Clark and Parrish, of the Edmonton Auto and Good Roads Ass'n, held a meeting in the Town Hall on Saturday evening last, in an endeavor to form a Stony Plain Section of their association.

The matter of the Edmonton-Vancouver Highway was explained, and facts and figures quoted of the immense advantage this undertaking would be to towns like ours. Taking over the 210 miles of the old C. N. roadbed is part of the scheme. The ease with which this could be accomplished, and the minimum cost pertaining thereto was set forth.

Mr. W. M. Washburn is temporary chairman, Mr. F. W. Lundy Secretary, and Mr. D. A. Stuart is chairman of the Membership Committee. The fee for members is \$5.

Another meeting for organization is called for tomorrow (Friday) evening, in the Town Hall.

The Menace of Bolshevism

During recent months, reference in the press of Canada to the activities of the radical socialist Bolshevik and Communist movements have not been as frequent as was the case a year or so ago, but this does not mean that the menace to our free British institutions has passed. Notwithstanding the anxieties and arduous duties at present imposed on the statesmen of Great Britain because of the troubles in Ireland, the complex problem of world disarmament, and the gigantic financial difficulties to be overcome following the war, leaders in government in the Old Country are not overlooking the danger that still threatens from the Bolshevik propaganda.

A committee of the House of Lords, under the chairmanship of the Duke of Northumberland, spent several months of investigation and research into the activities of these revolutionary organizations and in a report recently issued it is stated that there is overwhelming evidence that an international conspiracy exists which aims at the destruction of all existing institutions of government and society, of all religion, of all moral laws, and all property rights, throughout Great Britain, Canada, and other Overseas Dominions.

This report sets forth that the main points in the Revolutionary programme are—

- (1) The national power of Great Britain and other Allied States is to be broken down by the fomenting of internal revolutions, through appeals to class hatred, and by efforts to obtain greater freedom and privileges for one class of people. Governments which are strong are to be weakened by the introduction of Socialism, which will pave the way to anarchy.
- (2) Internationalism is to be taught.
- (3) In every possible way influence is to be secured over public officials.
- (4) As religion is the moral mainstay of all government, it is to be destroyed.
- (5) Property owning is to be rendered impossible—by means of a thousand laws, restrictions and taxes, thus bringing about some form of State Socialism, or Communism, or Anarchy.

The Communist Party, directed and subsidized from Moscow, exerts its power through magazines and printed matter, inculcating ideas of Red Revolution into the minds of the people, and by a process known as "boring from within." Communist schools have been established for perverting the young by the teaching of Communism and Atheism. In this connection it is important to note that there are over twenty weekly newspapers in Canada teaching and preaching Socialism and Communism, many of them of the most radical kind.

Despite all his many other duties and responsibilities, David Lloyd George, who is a radical of the sane and progressive type, felt impelled recently to sound a word of warning as to the danger that confronts British institutions from this subtle enemy. The British Prime Minister is reported as saying:

"The military danger is over, but there are greater, more insidious, more permanent dangers still remaining—the dangers that have arisen from the new conditions in this and every land, the new ideas that have arisen, the new organizations that have suddenly risen into great power. What is the peril? It is the phenomenal rise to power of a new party, with new purposes of the most subversive character. It calls itself Labor, but it is really Socialist.

"If anyone doubts the reality of the danger, I would ask him to read the Socialist and Labor papers. We rarely see them, and we do not quite see what they are after, but what they write in these papers is repeated on hundreds and thousands of platforms, to hundreds and thousands and millions of people. And they are beginning to believe it. Socialism is fighting, and you will find it in these papers—to destroy everything that great prophets and leaders labored for generations to build up. Private enterprise, individual effort, the stimulus of reasonable gain, the present organization of commerce, of industry, of credits—all that goes in this new system which is being preached, succeeds. Even the political liberty which they build up is being threatened."

The old and tried Labor organizations of Canada and the United States are aware of the danger which threatens and are out combating it. The business communities are becoming more and more aware of it. It is time the average man who loves the little home he has built up by patient effort and self-denial, the man with his quarter or half section of land, the men and women who know that in the public school and the church are to be found the real safeguards and guarantees of personal liberty and real political freedom, should bestir themselves and vigorously oppose this enemy to all that is dearest and best in life.

Have you noticed
how many of your neighbors
have changed from tea or
coffee to

INSTANT POSTUM

The smooth, rich flavor of
this cereal beverage appeals
to the taste, and it is free
from any element of harm.
Better nights and brighter
mornings usually result
from Postum in place of
tea or coffee.

"There's a Reason"

Knew His Name

The Poet Whittier's Dog Was An Intelligent Animal.

During one of the last birthday celebrations of the poet Whittier, he was visited by a celebrated oratorio singer. The lady was asked to sing, and, seating herself at the piano, she began the beautiful ballad, "Robin Adair." She had hardly begun when Mr. Whittier's pet dog came into the room and, seating himself by her side, watched her as if fascinated, and listened with a delight unusual for an animal. When she finished he came and put his paw very gravely into her hand and licked her cheek. "Robin Adair" takes that as a tribute to himself," said Mr. Whittier. "He also is a 'Robin Adair.'" The dog, hearing his own name, evidently considered that he was the hero of the song. From that moment, during the lady's visit, he was her devoted attendant. He kept by her side when she was indoors, and accompanied her when she went to walk. When she went away, he caught her satchel in his mouth to the gate, and watched her departure with every evidence of distress.—St. Nicholas.

PAINFUL DIARRHOEA CRAMPS IN STOMACH

Mr. Fred Tunstun, Craik, Sask., writes:—"A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work. The cramps in my stomach were dreadful, the heads of perspiration would stand out on my face at times I was in such great distress. At last I got a chance to send to town for a couple of bottles of Dr. Fowler's Extract of Wild Strawberry. I tried it according to the way I felt and soon obtained a great change for the better, for which I was very thankful. I don't know what the cause of my sickness was except the extremely hot weather and the active work of stocking the wheat."

Several of my neighbors were taken the same as myself and had the doctor attend them, but they didn't get any great relief until I advised them to use "Dr. Fowler's," when they soon experienced great relief. Dr. Fowler's Extract of Wild Strawberry has been on the market for several years and its cheap imitations are being offered to the public.

Be sure and get the genuine put up only by The T. Milburn Co., Limited, Toronto, Ont. Price, 50c a bottle.

The Chinese are aled of the world in the preparation of roast pork for the table. After it has come out of the oven, it is hung in the smoke of various aromatic herbs, which gives it a delicious flavor and robs it of the porky taste which is offensive to some palates.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not properly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Successful Family.
He was a young artist, and although a very gifted man, the world had not yet recognized what a man they had amongst them.

Still, success was coming his way little by little, and he was proudly telling his life story to a patron.

"A few years ago," he asserted, "I was quite unknown, but now my work is hung on the line!"

Then a bitter thought flittered through his brain, and he added:

"So is my wife's!"—London Answers.

Drink Water When Tired.
Dr. Eliza E. Mosher urged lately the members of the Women's Medical Society of New York, to drink a glass of water at 10 a.m. and other at 3, 4 and 5 p.m. This, she told them, would dilute the products of fatigue which were entering the blood and causing the tired feeling.

Saskatchewan Grain Man Found Operation Was Not Necessary

"I was doubtful about Tanlac until I tried it myself and now I know it does everything that is claimed for it," said Jacob Popp, well-known and prosperous grain grower of McNutt, Sask.

"I had a bad form of stomach trouble for sixteen years, which was steadily growing worse as time passed. I did not dare eat heavy food or pastry and at times I couldn't retain a thing on my stomach, not even a glass of water. I would bloat up with gas until my heart would beat like a trip-hammer and I used to have awful pains in my chest as well as in the pit of my stomach. My liver was all out of order and I was bothered a

good deal with headaches. I was in such a bad fix I could scarcely sleep at night or work during the day. In fact, I spent three weeks in the hospital and thought an operation was going to be necessary. Luckily, the operation was deferred and as soon as I left the hospital I began taking Tanlac.

"I can hardly realize that so little medicine could do as much good as Tanlac has for me. Although I took only three bottles, I gained twenty-eight pounds in weight and am eating, sleeping and working better than I have in many years. Tanlac is truly a remarkable medicine."

Tanlac is sold by leading druggists everywhere.

The Keeping Of Poultry

Pamphlet Tells How Poultry Can Be Made to Pay.

If resident in either town or country and you wish to know how best to keep poultry and secure the most satisfactory results, consult a pamphlet treating of the subject prepared by the Dominion Poultry Husbandman, F. C. Elford, and recently issued by the Department of Agriculture at Ottawa. The pamphlet can be had free on applications to the Publications Branch. It tells of how poultry can be raised in the city, how the birds should be housed and fed, how they should be treated in winter and summer, how to commence keeping in a small way, the equipment that is desirable, how to choose a breed, how to hatch and rear, and how to gather, keep, or market the eggs. In short all the essentials to success in poultry keeping for home consumption or selling are clearly and explicitly explained. In the term poultry are included turkeys, geese, ducks, guinea fowls and pigeons, the raising and care of which are fully discussed. Numerous illustrations of types of birds, and of methods of housing and feeding combine to make the pamphlet an invaluable compendium on poultry-keeping and marketing.

Unfit To Live—Must Die

This verdict is rendered a thousand times every week—no corn can live, be extracted nor drop off, if Putnam's Extract is applied to corns and warts. Use the old reliable "Putnam's" it never fails, 25c at all dealers.

The "highbrow" girl was talking "Think of it," she said. "Imagine those Spanish pirates going 3,000 miles on a gallop."

"Yes, dear," said the proficients wife, "but you can't believe all you hear about those foreign cars!"—London Tit-Bits.

Screeching the plants from certain effects of an English tourist has produced purple pasturisms, a color heretofore unknown.

Minard's Liniment for Burns, etc.

Salmon skin is about the best waterproof material that can be worn. The Eskimos use it for both shoes and slippers.

"COLD IN THE HEAD"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds in the head" will find relief in the use of HALL'S CATARRH MEDICINE will build up the nasal surface of the system, thus reducing the inflammation, and assisting Nature in restoring normal conditions. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Lapis Lazuli was the only stone of any intrinsic value known to the Egyptians under the Pharaohs.

For Burns and Scalds—Dr. Thomas' Electric Oil will take the fire out of a burn or scald. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

A town cannot grow without business. By helping your local dealer you assist the community.

Minard's Liniment for Dandruff

Still Walking

Edward Payson Weston Once Walked 500 Miles in Six Days.

Edward Payson Weston, the pedestrian who was famous a generation ago for his wonderful walking feats, is still hale and hearty at the age of eighty-two years, so a newspaper paragraph states. Even now he walks three miles daily for his mail and several times a week takes a twelve-mile walk in the neighborhood of his home, Plutarch, Ulster county, New York, just to keep himself in condition. Weston once walked 500 miles in six days, and 5,000 miles in 100 days.—Outlook.

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back. There is no half-way measure about this remedy. It goes right to work and gives prompt relief. It reaches the most breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

A London policeman is not permitted to marry without the approval of his superior.

Minard's Liniment Relieves Neuralgia

Japan and Newfoundland are the only countries that have put flowers upon their postage stamps. Japan uses the grysanthemum in the centre of all their stamps and Newfoundland introduces a bouquet of thistle blossoms.

World Happenings Briefly Told

The Japanese cabinet has decided to accept participation in the proposed conference on Far Eastern problems, the Associated Press is informed.

The Saskatchewan Department of Agriculture has purchased a number of cattle from Ontario, through A. J. Clarke, purchaser for the livestock branch.

Power of the Dominion Government to enforce conscription without first consulting the people was objected to by the Hull Trades and Labor Council.

Two animals of the renowned Arvonde herd of Holstein Friesians, owned by A. C. Hardy, Brockville, have been purchased by the Japanese Government for its experimental farm system.

From Halifax to Vancouver in a 15-foot boat is the objective of Capt. J. T. Day, Harry Inglis and H. J. Morrison, who have left on the long trip. They will follow the coast line and go through the Panama Canal, their only motive power a small sail and oars.

The French National Union of Combattants has approved a proposition for cards for veterans of the Allied nations entitling the former soldiers to all the advantages in an Allied country that they enjoy in their own. The organization has a membership of 800,000.

Germany lost 1,792,368 men killed and 4,46,874 wounded from 1914 to 1918, according to a revised compilation of the German casualties during the war. In addition, 200,000 men are still reported missing. The losses in the navy, which are included in the casualties given above, were 34,257 men killed and 31,085 wounded.

THIS WOMAN'S MISERY

Endeavored by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with falling of my organs, pains around my heart and in bowels and down my legs, neuralgia in my face and head, and that terrible sinking feeling. I felt that I could not live any longer, could fix my house in order every night so there would be no trouble if I dropped off in the night. My husband went to the drugstore to get the best remedy he had and he gave him Lydia E. Pinkham's Vegetable Compound. I took six bottles and felt a lot better. I will always recommend the Vegetable Compound, and you can use these facts as a testimonial."—Mrs. J. O. Church, Box 845, Smiths Falls, Ont.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from nervous prostration, displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion and dizziness. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Wheat Sixty-Six Pounds to the Bushel

Exhibitors at Edmonton Fair Had Some Good Grain

Among the exhibitors of grain at the Edmonton fair, was Mr. Price Sheppard whose entry of wheat weighed 66 pounds to the bushel. J. Strassburger, of Stony Plain, was also a prominent exhibitor in grains and vegetables. Of special interest was the exhibit of Alta Swedish red clover above which was an inscription stating that this clover which was first sown in 1915 had stood the test of six years without a single failure. This information should be of great value to the farmers as it is generally believed that red clover will not winter in Alberta, consequently, farmers do not sow this clover which is valuable not only for feed and seed, but as fertilizer. Wm. Chalmers, of Edmonton south, was the exhibitor, and he is enthusiastic in his praise of its qualities, and adaptability to the country.

Is Your Stomach Sour? Do You Belch Gas?

If you have sour risings from the stomach, feel bloated and uncomfortable, just try twenty drops of Nervine in sweetened water. Relief will come quick. Nervine dispels the gas, soothes the stomach, makes you fit and fine in a few minutes. As a general household remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35 cent bottle of good old "Nervine."

Your Summer Vacation

Special Summer Tourist Fares To The Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travelers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise, and Glacier, where the Company maintain splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route in one or both directions without extra charge. No extensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train a choice of two other daily trains is offered, and as all are equipped with open-top observation cars, through the mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Hides Do Not Figure

A provincial manufacturer assures us that the price of hides is not a factor in the cost of shoes. A prominent labor man declares that the labor cost in a pair of shoes represents only about a dollar. One must conclude that the price of an expensive pair of shoes must be caused by something like spontaneous generation.—Hamilton Herald.

For Frost Bites and Chills.—Chillblains come from undue exposure to slush and cold and frost-bite from the icy winds of winter. The treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is prompt and its application is extremely simple.

Work Doesn't Kill.

How much trustworthy evidence is there to show that the hurry and the overworking of modern civilization push men into premature graves? London, New York and Chicago have each a death rate very near the lowest ever known; octogenarians are more and more common, and active business men at sixty-five are so numerous that they attract no attention.—Youth's Companion.

Wonderful powers of memorizing facts are possessed by a Yorkshire laborer, who has mentally stored away 31,000 items of general information.

A man's idea of a good memory is one that enables him to forget everything prejudicial to his own interests.

Minard's Liniment for sale everywhere.

Cuticura Soap and Shampoo
Best For Children
If you wish them to have thick, healthy hair through life shampoo regularly with Cuticura Soap and hot water. Before shampooing touch spots of dandruff and itching with any, with Cuticura Ointment. A clean, healthy scalp usually means good hair.

—Cuticura Soap shampoos without rinsing.

A Big Butter Order

Butter from the Edmonton district is in demand, and one of the largest orders ever recorded there was placed recently when Paul de Wolff of Sardinia, B.C., asked Edmonton dealers to supply him with 1,000,000 pounds destined for the New York market. A million pounds' order is a big one to fill, but agents at half a dozen or more other central Alberta points are also being asked to assist in filling the order.

A WOMAN'S RIGHT TO GOOD HEALTH

Most troubles Afflicting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of bloodlessness. That is why one sees on every side pale, thin cheeks, dull eyes and drooping figures—sure signs of headaches, weak backs, aching limbs and nervous irritability. All great women should win the right to be well by refreshing their weary bodies with the new, rich, red blood supplied by Dr. Williams' Pink Pills, which reaches every organ and every nerve in the body. Through the use of these pills, thousands of women have found a benefit when suffering from anaemia, indigestion, general weakness and those ailments from which women alone suffer. Among the many women who tell of the good Dr. Williams' Pink Pills have declared is Mrs. L. H. Hicks, Round-Hill, N.S., who says: "I became very much run down in health; my blood seemed weak and watery, my strength failed, and I was so easily tired that my work was a burden. I had often read about Dr. Williams' Pink Pills, and decided to try them, and I can truly say that after using three boxes I found myself gaining strength and under the use of the pills all my old-time energy and vitality was restored. Out of my own experience I can strongly recommend this medicine."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Icebergs Carry Strange Freight.

Icebergs sometimes carry strange freight. One of the flat-topped variety, 100 feet high, was seen in mid-Atlantic bearing three vessels on its icy summit. Another, near the Banks of Newfoundland, had several Polar bears walking about on it.

When Holloway's Corn Remover is applied to corns it kills the roots and the callosity comes out without injury to the flesh.

Do Or Die.

Brown—Walters is crazy about etiquette. He read in a book that in the best society the wife ladies out the soup and he has given up soup.

Green—Why?

Brown—Because he has no wife.

Wise mothers who know the virtues of Mother Gresham's Worm Exterminator always have it at hand, because it proves its value.

In Hawaii it has been found that weeds can be kept down in sugar plantations by covering the fields with paper, which is easily penetrated by the sharp sugar cane shoots.

In some of the out-of-the-way rural districts in England, the people have a superstitious belief that ointment should never be applied with the first finger, as that finger is venomous.

Cretonne Trims Muslin Apron

By Marie Belmont.

The apron of unbleached muslin is admirable for summer wear. Many of these creations are designed so that they take the place of the house dress. The model illustrated is fashioned with short sleeves and the upper part is cut long enough to blouse over the sash of cretonne. It is really a slip-over affair as the back is closed except for a small opening at the top which allows an easy exit from its enveloping folds. A band of cretonne outlines the square cut neck as well as the sleeves and pocket. A cretonne flower decorates the front.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

Off the northwest coast of Australia there used to be a beautiful island 13 miles long. But it gradually sank until it disappeared entirely, and at the latest reports of sounding, it was found to be 50 feet below the surface of the water.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication, but the kind of Lubrication.

WHITMORE'S AUTO GEAR PROTECTIVE COMPOSITION

Add 500% to Gear Life. Thousands of tests have been conducted by Lubricating experts to demonstrate the relative efficiency of various lubricants. The results of these tests conducted over years, has fixed the choice of sixteen leading manufacturers. These manufacturers include:
The largest builder of fine cars in the world;
The largest builder of trucks in the world;
The largest builder of axles in the world;
The largest builder of worm gears in the world.
Many lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Auto Gear Compositions Contain No Acids

They are proof against heat and cannot break down or squeeze out. In the Panama Canal Emergency Dams, six million pounds rest on an unbroken film of WHITMORE'S. After an exhaustive test the U.S. Army contracted for its exclusive use. Manufactured by The Whitmore Manufacturing Co., Lubricating Engineers, Cleveland, Ohio.

ADVERTISE YOUR TOWN BY
ADVERTISING YOUR BUSINESS.

Who Am I?

Last February I didn't want to embarrass my best girl to make her propose to me, so asked her to be my wife; but she said she'd rather be excused, and, like an idiot, I excused her.

But I got even with the girl—I married her mother. Then my father married the girl. Now I don't know who I am.

When I married the girl's mother, the girl became my daughter; and when my father married my daughter, he is my son. When my father married my daughter, she becomes my mother.

If my father is my son, and my daughter is my mother, who in thunder am I?

My mother's mother (which is my wife) must be my grandmother; and I, being my grandmother's husband, I am MY OWN GRANDFATHER!

Horse Sense.

The superiority of the horse to any other motive power on the farm rests in his greater flexibility and versatility. He is adapted to a greater variety of tasks, and will also meet the requirements of any one of many kinds of work under a greater variety of conditions. His "horse sense," his ability to grasp and respond to the wish of his driver, and even to solve certain problems on his own account if need be, gives him a value that can never be attained by mechanical apparatus. — Our Dumb Animals.

The Great Text-Book.

The Bible is the greatest one-volume text book of modern business ever written. For two centuries a sentence lay buried in the pages of that great business manual. We passed it by as merely a bit of rhetoric. It reads thus: "And whosoever begeth among you, let him be your servant." A very pretty sentiment, men thought, but wholly impractical in a hard, practical world. Impractical! Turn over the pages of any national magazine today and what do you find? Every simple advertisement, almost is written about that thought. We have all come at last to understand that nothing but honesty pays. To endure, an institution must rest upon the solid foundation of justice to customer and employee alike; of service and of wisdom that can look beyond this year's material rewards — Bruce Barton, in Printers' Ink.

Edson, August 31.

NOTICE.

Public Notice is hereby given that during the months of July and August applications may be made under Sub-section 2 of Section 79 of the TOWN ACT for inclusion on the Voters' List of the TOWN OF STONY PLAIN on the part of the wife, husband, son, daughter, father or mother of each person assessed upon the last revised Assessment Roll.

For this purpose the office of the Secretary-Treasurer will be open during the usual office hours every day of the said months which is not a legal holiday.

Dated at Stony Plain this 17th day of June, 1921.

F. W. LUNDY,
Secretary-Treasurer,
Town of Stony Plain.

KODAK the Farm

Many a time you have wished you had more pictures of the farm as it was when you were a child. You would like to compare them with changes about the place to-day and all the improvements which have been made.

And the children away from home will appreciate more than you think pictures of familiar spots.

Begin now to take pictures of your home. There are so many things you'll want to Kodak.

There's a size for just your needs at a price to suit you.

J. F. CLARKE,

Stony Plain Pharmacy

Divergence In Viewpoints Between France and Britain Over Question Of Silesia

London.—The French Government deems it impossible to decide on the holding of a meeting of the Allied Supreme Council until the question of sending reinforcements into Upper Silesia has been decided.

M. de St. Aulaire, the French ambassador here, called on Lord Curzon, the British foreign minister, and conveyed this information in the name of his Government. The French notification is regarded here to indicate a serious divergence in the viewpoints of the two countries. It is stated Lord Curzon merely took the note of M. de St. Aulaire's communication and informed that he would refer the matter to the British cabinet.

When France agreed to a meeting of the Supreme Council in Paris on Aug. 4, it was more or less understood French acquiescence depended either on the question of reinforcements being previously settled or upon its being made the first subject of the agenda of the Council. The communication of M. de St. Aulaire would appear to show that the British Government declines to yield on this point.

U. S. Reduces Army To 150,000 Men

Congress Refused Funds to Pay Greater Force.

Washington.—Reduction of the United States army to a peace-time strength of one hundred and fifty thousand men has been accomplished in accordance with the decision of Congress when it refused to appropriate funds for pay of a greater force after October 1. With the reduction, Secretary Weeks announces there would be a general redistribution of troops, practical abandonment of seven of the great war-time army cantonnements; placement of many organizations on the inactive list, and skeletonization of others into materially reduced strength.

Circassians Kill Turkish Governor

As a Result British Are Reinforcing Dardanelles Garrison.

Constantinople.—Circassian bandits appeared in Kars, on the Straits of Marmora, 35 miles east of Gallipoli, raided the town and killed the Turkish governor and commandant of the gendarmie. A British detachment assisted the Turks in pursuing the bandits. As a result of this incident the British are reinforcing the Dardanelles garrison.

Britain Cancels Government Bonus.

London.—The chancellor of the exchequer announced that after September 30 no bonus will be paid to government employees in receipt of salaries over \$2,000 a year. He also stated that there would be reduction of 5 per cent. on salaries above \$500. He said that \$500,000 will be saved by these economies.

Will Pay Loan Without Borrowing.

Ottawa.—Sir Henry Drayton, minister of finance, announced that the \$15,000,000 due in New York on August 1 would be paid without any further government borrowing.

Turks Are Badly Defeated

Athens.—Information from all sources indicates that the resistance of the Turkish nationalists in Asia Minor is completely broken down, the Greek official news agency declares in a statement. The Turkish losses in killed, wounded and prisoners to date are estimated at 60,000. The Greeks, the statement says, are constantly pressing the Kemalists along the road to Angora. Along the route of their retreat the Turks set fire to stores of material which they were unable to take with them because of the rapidity of their flight.

Rainmaker Has Scored

Hatfield Wins Rain Bet With Medicine Hat District.

Medicine Hat.—Rainmaker Charles M. Hatfield has won his bet with the Medicine Hat United Agricultural Association and he will be paid \$8,000 for rain which has fallen in the district during the past three months. Hatfield was to receive \$8,000 if four inches of rain fell between May 1 and July 1. Up to Saturday last four and one quarter inches had been recorded and so Hatfield draws the maximum payment, which will be made him at the end of the month.

The association will hold a meeting to determine whether or not the contract shall be renewed for another year. Despite the outcome of the unusual contract which was made with the rainmaker, all are not convinced that Hatfield is entitled to take responsibility for the precipitation. It is pointed out that the rainfall did not come at the time it was most needed, and further that whenever the rain did come, it was general throughout the west.

Bibles are absolutely prohibited in Russia.

Wheat Field To Table In Few Hours

Ingersoll, Ont.—A record in which the harvester, the miller and the baker figured, was established a few days ago at Thamesford, Ont. On Thursday, at 3 o'clock, wheat was standing in the field. Later in the day it was threshed, drawn to the grain elevator at Thamesford and ground into flour. On Friday morning biscuits of excellent quality were made and placed on the table for dinner.

Terrible Experience Of Mountain Climbers

Mrs. Stone Is Rescued After Undergoing Incredible Hardships.

Calgary.—The search party which discovered Mrs. Stone has forwarded meagre details of the accident to the Alpine Club in Banff.

Mrs. Stone, who is not much the worse for her terrible experience, reports that she and Dr. Stone were climbing Mount Eon and Dr. Stone in attempting to make a short cut started up Rock Chimney with Mrs. Stone following him. They were not roped together. About half way up the rock on which he was standing gave way, and he plunged over her head to his death on the cliff below.

Mrs. Stone attempted to go down to her husband and became marooned on a narrow ledge of rock about half way down, from which she was unable to move. She remained there for five days without food. The only water she had was from a small stream which trickled down the mountain side at noon when the snows above melted. When discovered Sunday night by a searching party she was in a weakened and exhausted condition but uninjured. A. O. Wheeler, president of the Alpine Club, went up to the camp on Marshall Creek, accompanied by a nurse from Banff.

Quebec Crop is Fifty Per Cent. Less

Farmers Optimistic Although Drought Damaged Hay and Cereals.

Quebec.—"I still believe there is a decrease of at least 50 per cent. in the crop of the year," stated Hon. J. E. Caron, minister of agriculture, just returned from an automobile trip on the southern shore where he personally inspected the crop. "Not only hay but cereals are greatly damaged by drought. The potatoes look well and vegetables should be an average crop. I found the farmers were optimistic, however, and they are courageously taking means to meet the situation," Mr. Caron added. "Due to our advice, farmers will keep their dairy cattle and will use all the fodder available but it is hoped that the Federal Government will consent to grant a reduction in the freight rates to meet the requirements as the department of agriculture has received offers from the western provinces to send hay here if needed at a very reasonable price."

The West! Yes, But Water in a Puddle Isn't Water on the Land.

A Preliminary Estimate Is Now Supplied Of World's Crop Production

Turk Nationalists Asking For Peace

Resistance In Asia Minor Said To Be Broken.

London.—Mustapha Kemal Pascha, head of the Turkish Nationalist Government, has sent a telegram to Constantinople asking that the Central Government intervene with the Allies in an effort to obtain a cessation of Greco-Turkish hostilities, according to a despatch from Constantinople to the Exchange Telegraph Company.

Auto Accident Wipes Out Family

Autoists Miled By Car Being On Wrong Track.

Cleveland.—Five persons were killed, four of them almost instantly, when a car on the Abbey Avenue viaduct and an automobile crashed head on. One family was wiped out when John M. Francyk, 40, a garage owner, his wife, 37, and their two children, were killed. Each of the dead sustained a fractured skull.

The cause of the accident according to the police, was the operation of a shuttle car east on a westbound track, the eastbound track being under repair. The motorists were westbound and when they saw the street car on the westbound track they apparently thought it was traveling in the same direction as their automobile.

Courts Intervene In Military Execution

Say Sinn Feiners Should Have Been Tried By Court Martial.

Dublin.—An important judgment was delivered in the chancery division when the master of the rolls ordered a writ of habeas corpus, returnable against General Sir Neville Macready, commander of the British troops in Ireland; Maj.-Gen. Sir Edward Strickland, divisional commander, and others, in the case of John Egan, sentenced to death by a military court at Limerick in June for having ammunition in his possession.

In a long judgment the master of rolls has decided that Egan should have been tried by court martial under the Restoration of Order Act. The claim of the military authorities that the existence of the state of emergency justified them in overriding legislation seemed to him to call for a new bill of rights. There were considerations more important than the temporary duration of an insurrection. Among them were the eternal principles of justice, which could not be violated save with detriment to the interest and feeling of a civilized community.

Says Father Was Swindler

Daughter of Bank President Admits Knowledge of Alleged Theft.

Chicago.—Vivian Spurgin, daughter of Warren F. Spurgin, missing president of the closed Michigan Avenue Trust Company, who, with her mother, returned to Chicago from Detroit, where they fled following Spurgin's disappearance, has admitted that she had knowledge that her father had taken more than \$500,000 of the bank's money before he fled, it was announced by James E. McShane, assistant state attorney.

To Help Unemployed.

Toronto.—The board of control has passed a resolution moved by Mayor Church, that in view of the large amount of unemployment in the city instructions be given to the heads of departments to remove from the pay rolls those who are occupying dual positions or those occupying positions in the city's employ and receiving a pension at the same time.

Patronize your local merchant and thereby help to build up your home town and community.

Ottawa.—A cablegram received from the International Institute of Agriculture gives the following preliminary estimates of crop production for 1921, corresponding figures for last year being given in parenthesis:

Wheat—Spain, 143,140,000 bushels (138,606,000); Hungary, 41,887,000 bushels (38,139,000). The total production of these two countries, and including Belgium, Bulgaria, Finland, Alsace-Lorraine, Greece, Canada (243,700,000), United States, India, Japan, Algeria, Morocco, and Tunisia, is 1,712,000,000 bushels. This year's total production is 87.6 per cent. of the two previous years.

Rye—Spain, 27,254,000 bushels (27,831,000), Hungary, 18,938,000 bushels (16,520,000). The total of these two countries, and including Bulgaria, Belgium, Finland, Alsace-Lorraine, Greece, Canada and the United States, 172,983,000 bushels (164,865,000).

Barley—Spain, 92,180,000 bushels (90,463,000), Japan, 89,287,000 bushels (92,140,000). The total production of barley for the same countries as wheat, but excluding Hungary and India, is 552,349,000 bushels (531,738,000).

Oats—Spain, 32,500,000 bushels (33,550,000). The total production, including Bulgaria, Finland, Alsace-Lorraine, Greece, Canada (330,790,700), United States, Algeria and Tunis, is 1,828,000,000 bushels (2,142,000,000).

The grand total for wheat, rye, barley and oats, taken together, is 4,556,000,000 bushels compared with 4,563,000,000 bushels last year, a decrease of 31,300,000 bushels.

Toronto Landlords Have New Craft

Charge \$2.00 For Privilege of Viewing Prospective Homes.

Toronto.—That some landlords are asking prospective tenants the price of \$2 for the privilege of looking at houses and apartments prior to renting them, is the complaint contained in a letters received by a local newspaper. A few days ago a man in the west end of the city asked a real estate agent whether he could take a look at a certain apartment. He was asked \$2 admission fee.

"Will I get my money in case I do not take the place?" he asked.

"No," was the answer.

"But in case I like the looks of the apartment can I deduct \$2 from the first month's rent?" he said next.

"I charge you the \$2 to look at the place," said the agent. "It has nothing to do with the rent."

The indignant correspondent asks, "What will be the next ingenuity of profiteering?"

Harvesters From B. C.

Furd Contingent Will Not Leave Until August 13.

Vancouver.—British Columbia will send every able-bodied man who wants to go to the prairie harvest fields this year. It is expected that a great number will take advantage of the reduced fares.

The provincial employment bureau, however, announces that none will be earlier than August 13, on which date the first contingent will go forward on the regular eastbound trains from Vancouver, and daily thereafter until requirements are filled.

Russians Fire On German Boats.

Berlin.—The German mine sweeping fleet which has been operating in the Kola Bight on the Northern-Russian coast, is reported in a special despatch from Vardoe, Norway, to have been fired on by Russian land forces. The German fleet returned the fire but no damage was done on either side.

U.S. Parcel Post System Loss.

Washington.—The parcel post system now in being conducted at an annual loss to the government of approximately \$300,000 a year. Congressman Stenerson, chairman of the house committee on post offices and post roads, states.

Apply Chas. H. Holling, Stony Plain, Alta.

Stony Plain and District

Mr Tyrkola last week shipped a car of barley to Fort William.

Mr Floen, for some time on the staff at the local Demonstration Farm, severed his connection there last week. Mrs Floen, who had been managing the boarding-house on the Farm, let go at the same time.

A well-known farmer in Comet district has received an order from a farmer-friend in Ontario for two cars of oats at 50c a bushel f. o. b. Stony Plain.

Farmers and Stockmen! A fair is not only a day of recreation; but also a day of the best schooling you can get.

A court was held in Duffield yesterday before White, J. P., when Nick Tourlak had a neighbor up on a charge of assault and battery.

At the Good Roads Club recently established at Duffield, Mr P Faulks is President and Mr N Bailey is Secretary. An effort is being made to get the required 20 members.

Mr Wm Best took in a load of hogs to Edmonton last week for the Duffield U.F.A.

Mr Ibsen shipped a mixed car of cattle and hogs the same day.

Owing to an outbreak of scarlet fever among the pupils, the school at Woodlands has been closed.

The coal mines at Brule broke all records on July 27 by mining and shipping eleven hundred tons of coal.

I Want Listings—If your price is right and you give me exclusive listing of your farm, I can sell it. I have buyers for good farms.—R. L. GISELIN.

Don't forget the moving picture lecture to be given by Miss Morkin on Thursday, August 4, at 3 p.m. and also at 8 p.m. The Women's Institute invite the public to attend free of charge.

Mr R E Wood paid 12½¢ for hogs on Wednesday.

Hasse's "Hoedown."

Friday night last a dance was held in Mr Hasse's barn, at Bright Bank, which, no doubt, was the big event of the season. An extra large crowd was present, which undoubtedly was the reason for the many "floor managers" that were there.

And each one seemed to be kept quite busy getting his orders from the orchestra which was headed by a well-known musician.

There was also a policeman at the head of the stairs, keeping all in that came, so they wouldn't miss the Little Red Ribbon.

Sunny Deere was in evidence, telling a few of the back numbers when they must sit very quiet and look on, and not shock some of the modest ones.

But, taking it all in all, every one had a delightful time, and went home thinking everything was done "according to Hoyle."
